

SATELLITE DISH INSTALLATION APPLICATION FORM

****Note: This is only your application and not your final approval. Mail this form to Murphy Development, Inc. Green Bay office. Your final approval will be mailed to you within 3 – 5 business days****

Tenant(s) Name: _____

Address: _____

1. The above named tenant(s) agree to install satellite equipment according to Murphy Development, Inc. guidelines and safety requirements.
2. The above named tenant(s) agree to have equipment installed by a professional installer.
3. The above named tenant(s) agree to remove all satellite antennas and cable when he/she vacates the unit.
4. The above named tenant(s) understand there will be a charge for removal of equipment and repair of outside post. ****\$50 charge for removal of satellite equipment that is left behind****
5. The above named tenant(s) understands that Murphy Development, Inc. is not responsible for any theft or damage to any satellite equipment that the tenants had installed.
6. The above named tenant(s) understands this application is for a single room satellite system (1 dish) to be installed in the living room only. (Cable mounted on the outside of the building cannot extend further than 5 feet from patio or balcony area.)

Guidelines for Satellite Dish Installation

First Floor Installation:

1. Dish has to be installed a minimum of 7 feet above the patio slab (safety concern).
2. Dish cannot be mounted any higher than the upstairs apartment balcony floor decking (mounted any higher would infringe on upper units exclusive use area).
3. Cable wire has to be secured to the brick and decking.

Second Floor Installation:

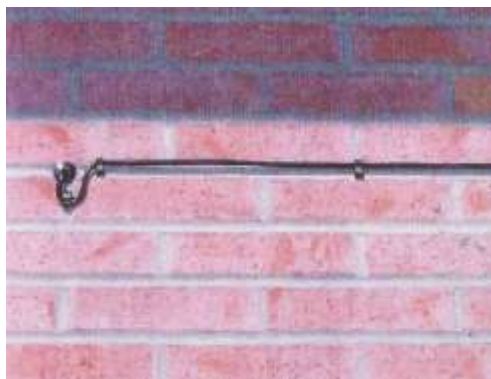

1. Dish to be mounted on post between floor decking and not to exceed above the roof line.
2. Cable wire has to be secured to the inside of the railing.

All Installations

1. Wall plate to be installed inside apartment.
2. Hole in brick has to be drilled thru mortar. ****NOT THE BRICK****
3. After cable is installed, proper insulation is required to prevent air leaks.
4. Satellite installers are not allowed to use existing cable that is installed inside the apartment units.
5. All satellite antennas have to be mounted on the 7"x7" patio or balcony post.
6. **THIS MUST BE SHOWN TO THE INSTALLER.**
